

SOFTWARE APPLICATIONS FOR ALL INDUSTRIES

- Weighbridge data collection, ticketing systems, and driver control stations
- Weighing automation and batching systems
- Vehicle management software including vehicle identification
- In-motion axle weighing data analysis and reporting
- Remote site accessing and control
- Standard software packages available or custom designed
- Software applications to suit all sites and all industries
- Small or large databases including, but not limited to, vehicles, products, and customers
- Wide range of PC and hardware options available

SCREEN CAPTURES

DRIVER CONTROL STATION

VEHICLE WEIGHING AND MANAGEMENT SYSTEM

IN-MOTION AXLE WEIGHERS

PORTABLE WHEEL WEIGHERS

TICKETING STATION

WEIGHBRIDGES

- Durable, accurate, and trade-approved
- Suitable for a range of sites and vehicle types and sizes

FULL-LENGTH WEIGHBRIDGES

VEHICLE MANAGEMENT

- Driver Control Stations
- Vehicle Identification Systems (Tag Readers, Transponders, i-Buttons)
- Site Security (Boom Gates, Software Registration)
- Ticketing Systems, Software Systems, Communication Systems

IN-MOTION AXLE WEIGHING

- The next big thing in vehicle weighing and management

ON-BOARD WEIGHING

- Weigh product as it's loaded in to a vehicle or as it's lifted by an end loader with an on-board weighing system
- Use on-board weighing for industry or agribusiness

SUSPENDED WEIGHING

- Digital Dynamometers
- Hanging Scales
- Spring Balances

NATIONAL-WIDE SPECIALIST EQUIPMENT SERVICING COMPANY

- ANALYTICAL BALANCES
- BAGGING MACHINES
- BALANCES
- BARCODE READERS
- BATCH CONTROLLERS
- BELT WEIGHERS
- BREAKDOWN SERVICES
- CALIBRATION SERVICES
- CARTON ERECTING EQUIPMENT
- CHECK WEIGHERS
- COUNTING SCALES
- DIGITAL WEIGHT INDICATORS
- DRIVER CONTROL STATIONS
- DYNAMIC WEIGHING
- EXPLOSION-PROOF EQUIPMENT
- FOOD INDUSTRY LABEL SCANNERS
- FORM, FILL, SEAL MACHINES
- GROSS BAGGING MACHINES
- HIRE EQUIPMENT
- IMPACT WEIGHERS
- INDUSTRIAL SCALES
- IN-MOTION AXLE WEIGHING
- KIT PACKAGING MACHINES
- LABORATORY BALANCES
- LIQUID FILLING MACHINES
- LOADCELLS
- MATERIALS HANDLING
- METAL DETECTORS
- METROLOGY
- NATA TESTING
- ONBOARD WEIGHING
- PACKAGING EQUIPMENT
- PALLETISING EQUIPMENT
- PLATFORM SCALES
- PROCESS CONTROL
- RETAIL SCALES
- SEALING MACHINES
- SERVICE AND MAINTENANCE
- SYSTEM INTEGRATION
- SOFTWARE
- TURNKEY PROJECTS
- TOP FORMERS
- WEIGHBRIDGES
- WEIGH HOPPERS AND SILOS
- WHEEL WEIGHERS
- X-RAY MACHINES AND SYSTEMS

WHY CHOOSE ACCUWEIGH?

Accuweigh is a true national company with branches in most major cities. We have highly trained installation and service personnel in large service departments with years of installation and real world experience in the weighing, bagging, filling, packaging, and inspection industries.

We also provide the full range of equipment to meet your application and requirements, not just a subset of equipment. Please request a Company Profile Brochure.

BALANCES AND PLATFORM SCALES FOR ALL APPLICATIONS

COUNTING SCALE

- Capacities from 60g to 30t
- NMI Trade-Approved Models
- Water-Proof Scales
- Crane Scales
- Laboratory and Industrial Balances
- Hazardous Area Protection Scales
- Retail and Point-of-Sales Scales
- Counting Scales
- Pallet Scales
- Hanging Scales
- Personal and Medical Weighers
- Overhead Track Scales

WATER-PROOF SCALE

PLATFORM SCALE

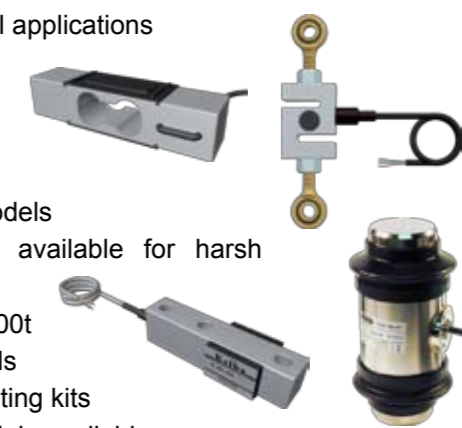

PALLET-SIZED PLATFORM SCALE

LOADCELLS AND MOUNTING KITS FOR ALL APPLICATIONS AND INDUSTRIES

ACCUCELL WEIGHBRIDGE LOADCELL

- Loadcells available for all applications
- Testing equipment
- Shear-beam
- Single-point
- Tension ("S"-type)
- All quality makes and models
- Stainless steel models available for harsh environments
- Capacities from 1kg to 500t
- Cenelec approved models
- Complete range of mounting kits
- NMI trade-approved models available
- Large range held in stock locally

LARGE REPLACEMENT RANGE AVAILABLE

SILLO MOUNTING KITS

ACCUPAK AND BUDPAK BAGGING AND FILLING MACHINES

VALVE BAGGING MACHINE

- Gross Weighing Bagging Machines
- Net Weighing Bagging Machines
- Valve and Open Mouth Bagging Machines
- Liquid Filling Machines and Lines
- Closing Conveyors, Transfer Conveyors
- Stitching and Sealing Heads, Top Formers
- Carton Erecting and Palletising Systems
- Kit Weighing, Counting, and Packaging Machines
- Packaging Denesters
- Turn-key Systems

CONVEYOR-FEED MACHINE

OPEN-MOUTH BAGGING MACHINE WITH BAG CLAMP

LIQUID FILLING LINE

AUTOMATIC HIGH-SPEED CHECK-WEIGHERS, METAL DETECTORS, AND X-RAY MACHINES

X-RAY SYSTEM

X-RAY EXAMINATION

- Compact, inexpensive, versatile
- Dual automated rejection
- Range of machines available to suit packaging and product

METAL DETECTION

- Ideal for the food, pharmaceutical, textiles, packaging, and industrial industries
- Automatic calibration
- Automatic rejection feature

LABEL SCANNING AND VERIFICATION

- Optical Character Verification and Pattern Matching suitable for the food industry
- Capable of scanning and checking on average 185 ppm
- Data collection, event logging, report production to Spreadsheet

CHECK-WEIGHERS

- Optimum accuracy at a high line speed capacity
- Modular systems
- Networkable, versatile

CHECKWEIGHER & METAL DETECTOR COMBINATION

VERTICAL FORM, FILL AND SEAL MACHINES AND MULTI-HEAD WEIGHING

VERTICAL FORM, FILL AND SEAL MACHINE

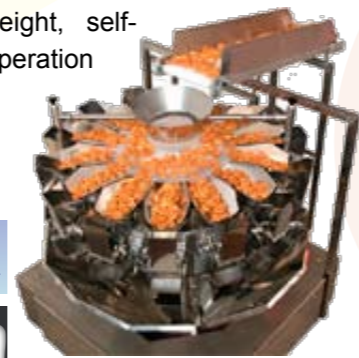

VERTICAL FORM, FILL AND SEAL MACHINES

- Range of machines available to suit end user application
- High speed, superior reliability, and quality sealing of bags
- Easy replacement of bag reels
- Wide range of bag types possible and product types, including delicate products

MULTI-HEAD WEIGHERS

- Completely micro-processor controlled
- Superior speed and accuracy
- Easy changeover from one product to another
- No underweight, self-diagnostic operation

MULTI-HEAD WEIGHER

DIGITAL INDICATORS AND BATCH CONTROLLERS WITH FULL RANGE OF OPTIONS

RINSTRUM INTELLIGENT INDICATORS & LARGE-DIGIT INDICATORS

REPLACEMENT INDICATOR BRANDS

- Supplied separate or in fully wired enclosure
- All are well-known, quality brands
- Accuweigh use and stock all models and our technical experience will ensure that the correct unit for your installation is supplied
- Batching and special function indicators available

OPTIONS

- RS-232 / RS-422 / RS-485 / Serial Current Loop
- Time and Date Stamping / Quality Assurance Reporting
- 4-20mA / 0-10V Analog Output
- Network Adaptors

EVERY WEIGH-TRONIX RANGE OF INDICATORS
